OWNERSHIP OF THE FEDERAL RESERVE

Most Americans, if they know anything at all about the Federal Reserve, believe it is an agency of the United States Government. This article charts the true nature of the "National Bank."

Chart 1

Source: ** Federal Reserve Directors: A Study of Corporate and Banking Influence ** - - Published 1976

Chart 1 reveals the linear connection between the Rothschilds and the Bank of England, and the London banking houses which ultimately control the Federal Reserve Banks through their stockholdings of bank stock and their subsidiary firms in New York. The two principal Rothschild representatives in New York, J. P. Morgan Co., and Kuhn, Loeb & Co. were the firms which set up the <u>Jekyll Island Conference</u> at which the <u>Federal Reserve Act</u> was drafted, who directed the subsequent successful campaign to have the plan enacted into law by Congress, and who purchased the controlling amounts of stock in the Federal Reserve Bank of New York in 1914. These firms had their principal officers appointed to the Federal Reserve Board of Governors and the Federal Advisory Council in 1914. In 1914 a few families (blood or business related) owning controlling stock in existing banks (such as in New York City) caused those banks to purchase controlling shares in the Federal Reserve regional banks. Examination of the charts and text in the House Banking Committee Staff Report of August, 1976 and the current stockholders list of the 12 regional Federal Reserve Banks show this same family control.

Chart 2

Source: ** Federal Reserve Directors: A Study of Corporate and Banking Influence ** - - Published 1983

The **J. Henry Schroder Banking Company chart** encompasses the entire history of the twentieth century, embracing as it does the program (Belgium Relief Commission) which provisioned Germany from 1915-1918 and dissuaded Germany from seeking peace in 1916; financing Hitler in 1933 so as to make a Second World War possible; backing the Presidential campaign of Herbert Hoover; and even at the present time, having two of its major executives of its subsidiary firm, Bechtel Corporation serving as Secretary of Defense and Secretary of State in the Reagan Administration.

The head of the Bank of England since 1973, **Sir Gordon Richardson**, Governor of the Bank of England (controlled by the House of Rothschild) was chairman of **J. Henry Schroder Wagg and Company of London** from 1963-72, and director of **J. Henry Schroder**, **New York** and **Schroder Banking Corporation**, **New York**, as well as <u>Lloyd's Bank of London</u>, and <u>Rolls Royce</u>. He maintains a residence on Sutton Place in New York City, and as head of "The London Connection," can be said to

be the single most influential banker in the world.
